

KEEP THE MILK MOVING

**European Association
of Dairy Trade**

About Eucolait

Eucolait, the European Association of Dairy Trade represents the interests of European wholesalers, exporters and importers of dairy products (milk, cream, butter, cheeses and dry dairy products such as milk powder, whey derivatives and casein).

Founded in 1959, Eucolait today has **over 500 members** in 16 EU Member States and many associate members outside the EU.

Total EU milk production:

160 million tonnes per year and growing

Intra-EU trade of dairy products:

equivalent to **1/3 of EU milk production**

EU exports of dairy products:

15 billion Euros per year, 12% of total production and rising.

What our members do

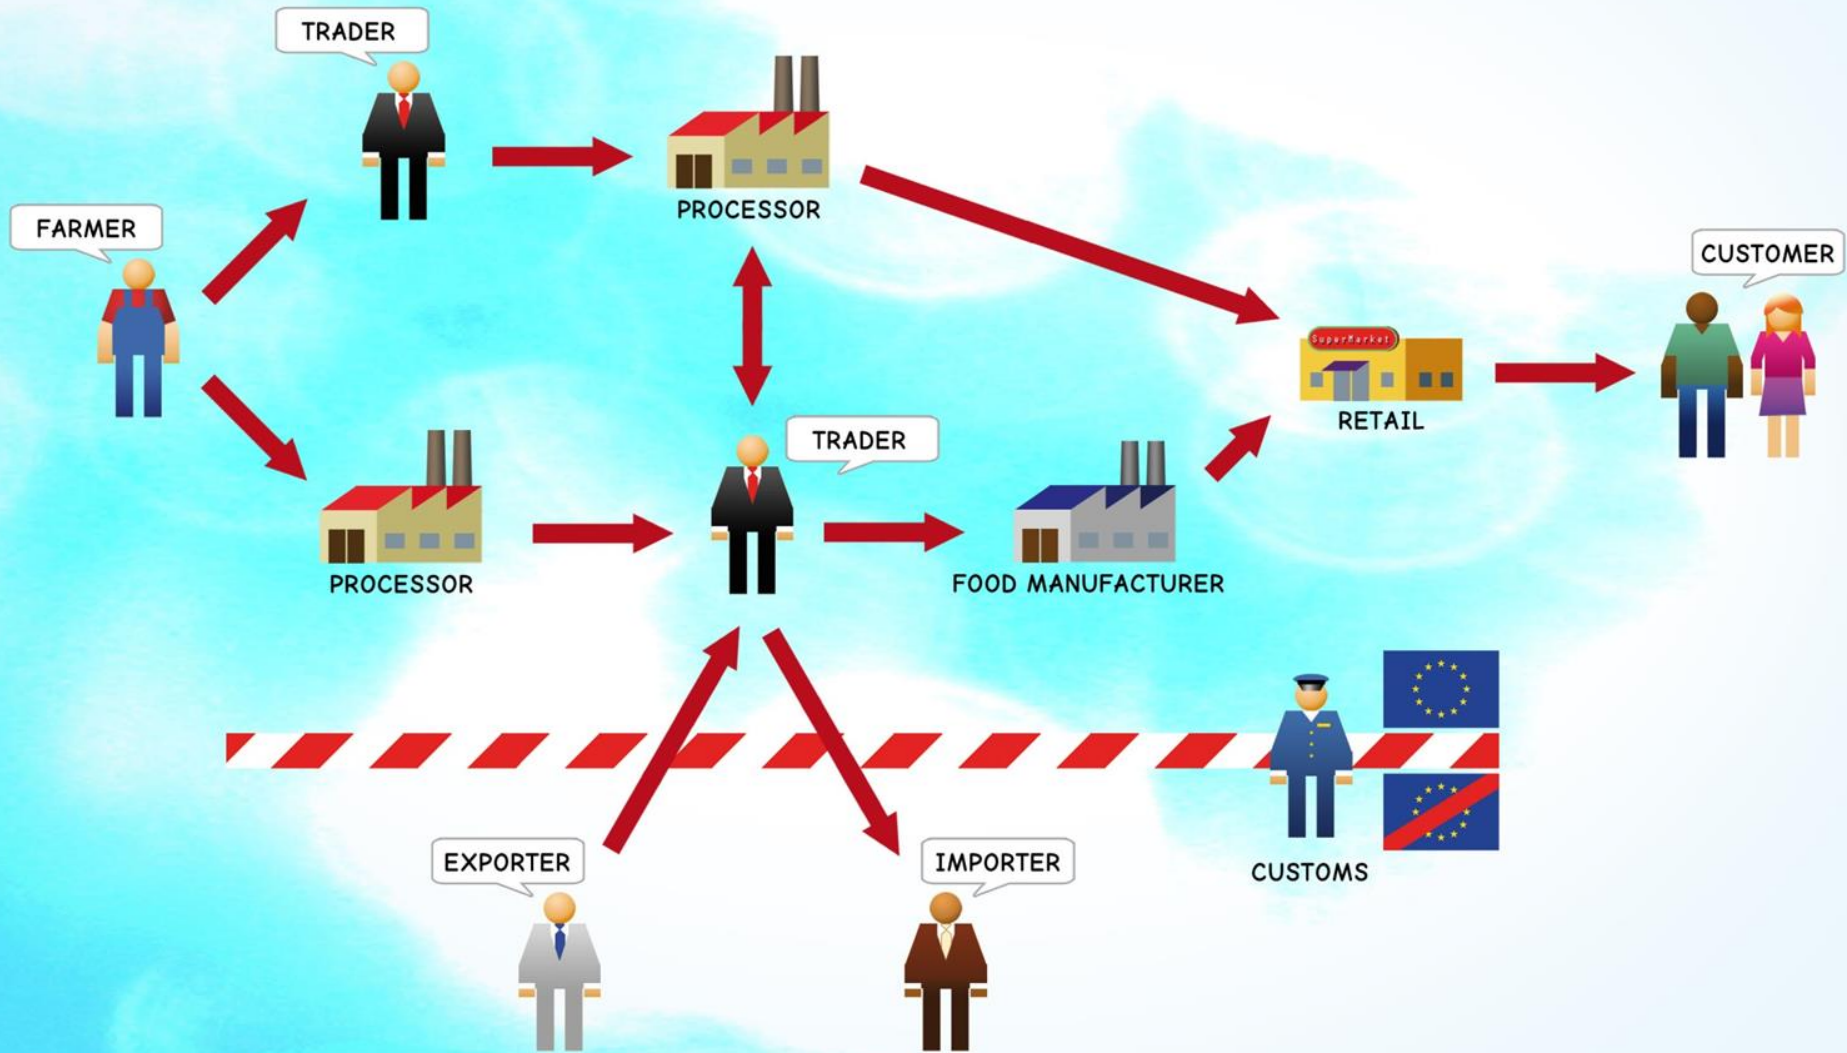

European dairy traders provide a variety of services to the market place, **matching supply with demand**. This helps improve the functioning of the dairy market, limit price volatility, prevent food waste and secure added value for all participants in the supply chain.

- Export
- Import
- Customs
- Technical expertise
- Tailor-made products
- Logistics
- Financial
- Market knowledge
- Taking over risks

This helps improve the functioning of the dairy market, limit price volatility, prevent food waste and secure added value for all participants in the supply chain.

Role of trade in the dairy supply chain

Responsible traders

Eucolait members wish to ensure that policy makers and all actors in the dairy supply chain gain a better understanding of the positive contribution of dairy traders to the market.

These principles guide Eucolait members
